

Robert M L Baker, Jr., Ph.D.

Publications and Communications

1937 *The Kiddish Country*, a children's novel (concerning the adventures of Kevin and Roger on an amazing island), published by the Author, June.

1941 "Tank wheels," Sent to *Department of Commerce, The National Inventors Council*, Washington, D.C., September 9. The use of an airplane-landing gear like deployable wheels to allow for highway sprint (at greater, more efficient mpg and high speed) to the battlefield, where the wheels can be retracted and the tank returned to usual on-tread or track operation.

1954 with M. W. Corn, G. L. Matlin, and Silvia Rachman, "Elements of Churm's objects," *Minor Planets Circular*, 1100, July 15.

1955 "Optimal thrust angle program leading to a prescribed velocity vector," *Douglas Aircraft Company Report SM-19179*, July 1.

1955 "Optimal thrust angle program for transit between space points," *Douglas Aircraft Company Report SM-19180*, July 1.

1955 "Application of the Kepler and 'VIS-VIVA' equations to missile trajectories," *Douglas Aircraft Company Report SM-19209*, July 26.

1955 "Keplerian missile trajectories modified by initial thrust and aerodynamic drag," *Douglas Aircraft Company Report SM-19234*, August 1.

1955 "Approximation to missile trajectories on a rotating Earth," *Douglas Aircraft Company Report SM-19235*, August 1.

1955 "Optimal thrust angles program for entry into a satellite orbit with a single thrust period," *Douglas Aircraft Company Report SM-19240*, August 8.

1955 "Missile guidance errors due to horizontal variations of refractive index in the troposphere," *Douglas Aircraft Company Report SM-19264*, September 8.

1955 "One-dimensional thermal analog of missile aerodynamic heating," *Douglas Aircraft Company Report SM-19401*, September 9.

1955 "Three-dimensional missile thermal analogy," *Douglas Aircraft Company Report SM-19404*, September 10.

1955 "Librations of a prolate spheroid revolving in a circular orbit," *Douglas Aircraft Company Report SM-19422*, October 17.

- 1955 with W. B. Klemperer, "Satellite librations," *Douglas Aircraft Company Report* SM-19490, December 9.
- 1956 "Analysis of photographic material serial 01 and 02," *Douglas Aircraft Report* Dated 24 March and 26 May 1956 (Limited Distribution from W. B. Klemperer's Research Group in Douglas Aircraft Co., Santa Monica, California.) Film analysis based upon film copies furnished by Green-Rouse Production, Samuel Goldwyn Studios, 1041 North Formosa St., Hollywood, California.
- 1956 "Consideration of radar type detection device utilizing ultraviolet radiation," *Douglas Aircraft Company Report* SM-27033, May 16, 1956.
- 1956 "Missile trajectory modification due to the asphericity of the Earth," *Douglas Aircraft Company Report* SM-27090.
- 1956 "Requisite accuracy for rectilinear trajectory Moon interception," *Douglas Aircraft Company Report* SM-27110, July 12.
- 1957 "Drag interactions of meteorites with Earth's atmosphere," Paper delivered at the *20th Meeting of the Meteoritical Society*, UCLA, May.
- 1957 with S. Herrick and C.G. Hilton, "Gravitational and related constants for accurate space navigation," *Proceedings of The 8th International Astronautical Congress*, Barcelona.
- 1957 with S. Herrick and C.G. Hilton, "Units and constants for geocentric orbits," *Amer. Rocket Soc. Reprint* 497-57, Iii + 62 pp.
- 1957 with W. B. Klemperer, "Satellite librations," *Astronautica ACTA*, Fasc. 1, 16-27.
- 1958 "Ephemeral natural satellites of the Earth," *Science*, 128, 1211.
- 1958 with A. F. Charwat, "Transitional correction to the drag of a sphere in free molecular flow," *Physics of Fluids*, 1, No. 2, 73-81.
- 1958 with S. Herrick, "Orbits," *Aviation Age*, March.
- 1958 "Drag interactions of meteorites with the Earth's atmosphere," Dissertation submitted in partial fulfillment of the degree of Ph.D. at UCLA, May.**
- 1958 "Passive stability of a satellite vehicle," *Navigation*, Volume 6, No. 1, Spring, pp. 64-65.
- 1958 "Navigation requirements for the return from a space voyage," *Navigation*, Volume 6, No. 3, Autumn, 175-181.

- 1958 with S. Herrick, "Recent advances in astrodynamics," *Jet Propulsion*, 28, No. 10, 649-654.
- 1958 "Gravitational and related constants for accurate space navigation," *University of California, Los Angeles, Astronomical Papers*, 1, No. 14, 297-338.
- 1958 with L. Walters and E. Duran, "Precision Orbit Determination," Publication No. U-306, *Aeroneutronic Systems, Inc.*, December 16.
- 1958 "Note on interplanetary navigation," *Jet Propulsion*, 28, No. 12, 834-835.
- 1958 "Practical limitations on orbit determination," *Institute of Aeronautical Science Reprint*, No. 842, July 8-11, 10 pp.
- 1958 "Astrodynamics and trajectories of space vehicles," Space Technology Lecture Series, sponsored by the *Long Island IRE* and the *American Rocket Society*, New York, November 13.
- 1959 "The application of astronomical perturbation techniques to the return of space vehicles," *ARS Journal*, 29, No. 3, March.
- 1959 "Effect of accommodation on the transitional aerodynamic drag of meteorites," *Astrophysical Journal*, Volume 130, Number 3, pp. 1024-1026, May.
- 1959 "Encke's method and variation of parameters as applied to re-energy trajectories," *American Astronautical Society Reprint*, No. 58-36, August 19, 1958, 13 pp; and *Journal of the American Astronautical Society*, Vol. 6, No. 1, 1959.
- 1959 "The application of astronomical perturbation techniques to the return of space vehicles," *Journal of the American Rocket Society*, March.
- 1959 "Sputtering as it is related to hyperbolic meteorites," *Astrophysical Journal*, May.
- 1959 "High-precision orbit determination," *Aeroneutronic Systems, Inc.*, Monthly Progress Report, May.
- 1959 with S. Herrick, "Astrodynamics," *Astronautics*, Volume 4, Number 11, pp. 30ff.
- 1959 "Single-station radar orbit determination and the project mercury early-abort problem," *Aeroneutronic Systems, Inc.*, Publication No. U-469.
- 1959 "Training in Astronautics," *Space*, December.
- 1959 "High precision orbit determination," *Aeroneutronic Systems, Inc.*, Monthly Progress Report, June 1.

- 1959 with P. Koskela, C. G. Hilton, and J. Sokol. "Interim report covering task five, range planning study for Project Mercury," Publication No. U-538, July 30.
- 1959 "Accuracy required for a return from interplanetary voyages," *Journal of the British Interplanetary Society*, Volume 17, Number 3, May-June, pp. 93-97.
- 1959 "The effect of accommodation on the transitional drag of meteorites," *Astrophysical Journal*, August.
- 1959 with Eric Durand and G. W. Westrom, "Acquisition and tracking of satellite vehicles."
- 1960 "Librations on a slightly eccentric orbit," *ARS Journal*, 30, No. 1, 124-26, January.
- 1960 "Plane librations of a prolate ellipsoidal shell," *ARS Journal*, 30, No. 1, 126-128, January.
- 1960 with Maj. J. Schmitt and C. C. Combs, "Lunar Guidance," in *SR-183 Lunar Observatory Study* Vol. II (S), ARDC Project No. 7987, Task No. 19769, AFBMD TR 60-44, pages II-3 to II-43, ARDC Project No. 7987, Task No. 19769, AFBMD TR 60-44, pp. II-3 to II-43.
- 1960 "Reversible Earth – Moon Trajectories," *International Astronautics Federation*, Stockholm, Sweden, April.
- 1960 "Orbit Determination from Range and Range-Rate Data," *ARS Preprint* 1220-60, May.
- 1960 "Review of dependence of secular variations of orbit elements on air resistance," *ARS Journal*, July, 675, Vol. 30, No. 7.
- 1960 with M.W. Makemson, *An Introduction to Astrodynamics*, Academic Press, New York, October, 358 pages.**
- 1960 "Astrodynamics," in *Space Trajectories* (Academic Press, New York), October pp. 29-68.
- 1960 "Efficient precision orbit computation techniques" (revised), *ARS Journal*, 30, No. 8, 740-747.
- 1960 "State-of-the-Art-1960 Astrodynamics," *Astronautics*, 5, No. 11, 30.
- 1960 "Novel orbit determination techniques as applied to Air Force systems," paper presented to the *Seventh Annual ARDC Science and Engineering Symposium*, Boston, Massachusetts, November 30.

- 1960 "1960 Advances in Astrodynamics," *ARS Journal*, December .
- 1960 with M. W. Makemson and G. Westrom, "Analysis and standardization of astrodynamic constants," *Journal of the American Astronautical Soc.*, VII, No. 1.
- 1961 with M.W. Makemson, *Proceedings of the 1961 International Astronautics Federation*. Springer Verlag, Berlin.**
- 1961 "Preliminary results concerning range-only orbit determination," *Proceedings of the First International Symposium on Analytical Astrodynamics*, p. 61, June 29.
- 1961 "Perturbations," pp. 4-16 - 4-18; "Orbit Determination," pp. 8-34 - 8-38; "Navigation," pp. 27-33 - 27-34, *Handbook of Astronautical Engineering*, McGraw-Hill Book Company, Inc.
- 1961 with R. L. Forward, "Gravitational Gradients, Gravitational Waves and the 'Weber Bar'," Lecture given at the *Lockheed Astrodynamics Research Center, LARC, 650 N. Sepulveda, Bel Air , California, USA, November 16*. (Forward coined the term "High-Frequency Gravitational Waves" and Baker suggested their use to monitor extraterrestrial intelligence communications) *Lockheed Research Report RL 15210*. Summary of Lecture prepared by Professor Samuel Herrick, the Senior Consultant to *LARC*.
- 1961 "State of the Art - 1961 Astrodynamics," *Astronautics*, Vol. 6, No. 12, December.
- 1962 "Astrodynamics" Chapter in *McGraw-Hill Encyclopedia of Science and Technology*, McGraw-Hill Book Company, Inc.
- 1962 with B. C. Douglas, David Newell, A. K. Stazer, R. L. Held and M. Lifson, "Determination of the orbit of the Russian venus probe," *ARS Journal*, pp. 259-260, February.
- 1962 with B. C. Douglas and Mary P. Francis, "A note on the determination of orbits from fragmentary data," *Lockheed Astrodynamics Research Report #1*, LR 15379, April.
- 1962 with B.C. Douglas, and M. P. Francis, "A note on the determination of orbits from fragmentary data," *Lockheed California Company Astrodynamics Research Report No 1*. (LR 15379) April.
- 1962 with Maud W. Makemson and G. B. Westrom, "Analysis and standardization of astrodynamic constants," *J. Astronaut. Sci.*, VIII, Spring.
- 1962 with M. P. Francis, "Recent advances in astrodynamics, 1961," *Lockheed California Company Astrodynamics Research Report No 6*. (LR 15924).

- 1962 "Preliminary orbit determination," *Lockheed California Company Astrodynamics Research Report No 7*. (LR 15969) Presented at *The International Symposium on The Dynamics of Satellites* in Paris, France, May 28-31, August.
- 1962 "Influence of planetary mass uncertainty on interplanetary orbits," *Lockheed California Company Astrodynamics Research Report No 4*. (LR 15948).
- 1962 with T. Gabbard, "Determination of the position of a lunar radio beacon by means of terrestrial Doppler measurements," *Lockheed California Company Astrodynamics Research Report No 9*. (LR 16157), September.
- 1962 with P.M. Merifield, "Effects of the atmospheric refraction on the position of terrestrial objects viewed from space," *Lockheed California Company Astrodynamics Research Report No 14*. (LR 16290) October.
- 1962 with Mary P. Francis and M. Wheelon, "Error propagation in orbits determined by the Gibbsian method," *Lockheed California Company Astrodynamics Research Report No. 20*. (LR 17097).
- 1963 "Utilization of the Laplacian method from a lunar observatory," *Icarus*, Vol. 1, No. 4, January.
- 1963 "Elimination of spurious data in the process of preliminary and definitive orbit determination," *Dynamics of Satellites Symposium* (Paris, France, May 28-30 1962), published by Springer-Verlag, Berlin.
- 1963 with K. Forester, "Orbit determination by linearized drag analysis," AIAA Preprint No. 63-428, *Astrodynamics Conference* August 19-21, *Yale University*.
- 1963 "Influence of Martian ephemeris and constants on interplanetary trajectories," Chapter in *Exploration of Mars*, American Astronautical Society.
- 1963 with Kurt Forster, "Orbit determination by linearized drag analysis," *AIAA Preprint No. 63-428*, presented to AIAA Astrodynamics Conference August 19-21, *Yale University*, New Haven, Connecticut.
- 1964 "Space Mechanics 1964," *Computer Sciences Corporation*, Vol. 2, No. 2, August.
- 1964 "Extension of f and g series to non-two-body forces," AIAA Preprint No. 63-428, and *AIAA Journal*, July.
- 1964 "1964 State of the art in Astrodynamics," AIAA Annual Meeting, Washington, D.C. June 19 - July 2, *AIAA Preprint No. 64-535*, (Also lecture given at *University of Washington*, Seattle, May 29, and at *Boeing Scientific Research Laboratory*, June 1).

1965 "Radiation on a satellite in the presence of a partly diffuse and partly specular reflecting body." Presented at the *Joint COSPAR, IUTAM, IAU Conference on the Trajectories of Artificial Celestial Bodies as Determined from Observations*, Paris, France, April 20-23.

1965 "Space Mechanics," Chapter in *Space/Aeronautics, Research and Development Technology Handbook*, 1964/1965, pp. 11-13, published by Conover-Mast, New York.

1965 with Donald L. Lamar, "Possible residual effects of meteor and comet explosions on desert pavements," presented at the *28th Meteoritical Society Meeting*, Odessa, Texas, October 1965.

1967 *Astrodynamics: Applications and Advanced Topics*, Academic Press, New York.

1967 "The operating instructions for the Encke trajectory prediction (ETP) program," *Computer Sciences Corporation* May.

1967 "Technical report on research on hypervelocity sputtering phenomena," *Computer Sciences Corporation*, September 15.

1967 with M.K. Makemson, *An Introduction to Astrodynamics, 2nd Edition*, Academic Press, New York.

1968 "Computer systems and the frontiers of science: A ten year projection," *Computer Sciences Corporation*, January.

1968 "Study of advanced techniques for the integration of orbits of satellites and their concomitant variational equations," *Computer Sciences Corporation*, February.

1968 with K. C. Ford, "Performance analysis of space-population cataloguing systems (U)," *Computer Sciences Corporation*, April 21.

1968 *Symposium on unidentified flying objects*, Hearings before the Committee on Science and Astronautics, U.S. House of Representatives, Nineteenth Congress, Second Session, July 29.

<http://www.project1947.com/shg/symposium/baker.html>

1968 "Future experiments on anomalistic observational phenomena," *Journal of the Astronautical Sciences*, Vol. XV, No. 1, January – February.

<http://www.project1947.com/shg/symposium/baker.html#evidence>

1968 "Observational evidence of Anomalistic Phenomena," *Journal of the Astronautical Sciences*, Vol. XV, No. 1, January – February.

<http://www.project1947.com/shg/symposium/baker.html#evidence>

- 1968 "Preliminary orbit determination for high-data-rate sensors," *Journal of the Astronautical Sciences*, Volume XV, No. 5.
- 1968 "Astrodynamics," in *Encyclopedic Dictionary of Physics*, Pergamon Press.
- 1968 "Hydrofoil-optimum lift-off speed for sailboats," *Science*, 162, No. 3859, pp. 1273-1275.
- 1968 with K. C. Ford, "Performance analysis of space-population cataloging systems (U)," 1968, Secret, SAR, NOFORN Report completed under Air Force Contract F04701-68-C-0219, April 22.
- 1970 "The dynamics of a hydrofoil, rigid-airfoil sailboat," *American Institute of Aeronautics and Astronautics, Ancient Interface*, circa July.
- 1970 United States Patent Number 3,532,067, "Water Conveyance Apparatus," October 6.** Optimized rigid airfoil, hydrofoil unmanned sail craft.
- 1970 with others. "Some results of a short-arc, orbit-determination study related to the GEOSC altimeter experiment," *Proceedings of the GEOS-2 Program Review Meeting*, Volume IV – General, NASA Goddard Space Flight Center, Greenbelt, Maryland, June 22-24, Edited by *Computer Sciences Corporation* in November 1970.
- 1971 with J. S. Douglas. "Preliminary analysis of a rigid-airfoil, hydrofoil water conveyance," *Journal of Hydronautics*, 5, No. 4, October, pp.140-147.
- 1971 "Vandenberg area, solid fragment debris pattern analysis," prepared for Space and Missile Test Center, *Computer Sciences Corporation*, Nov. 5.
- 1971 "Study of special-purpose orbit determination techniques for altimetry," prepared for *National Aeronautics and Space Administration, Computer Sciences Corporation*, December 15.
- 1971 "Study of special-purpose orbit determination techniques," prepared for *National Aeronautics and Space Administration, Computer Sciences Corporation*, September 15.
- 1971 "Mini-arc orbit determination for the GEOS-C altimetry experiment," *Third International Symposium Use of Artificial Satellite for Geodesy*, April 15-17, Washington, D.C.
- 1972 with Carl Sagan and Thornton Page, *UFO's a scientific debate*, Chapter 8, Cornell University Press.**

- 1973 "Self-reefing rigid sails and windmills generator-system," *Naval Undersea Center*, August 21.
- 1973 "*Hydroflyer* array tender, for sprint and drift acoustical surveillance," *Naval Undersea Center Report*, September 20. Use of a fleet of small unmanned array tenders to tow hydrophone arrays and accomplish broad-area surveillance of submarines.
- 1973 "Project Sigma: Array of high endurance, acoustically translocating vehicles to acoustical surveillance," presentation to Richard DeLauer *Defense Advanced Research Project Agency*, January 22.
- 1974 "Hydrophone-array tender using unmanned remotely piloted vehicle," presentation to *Naval Ship Systems Command*, June 4.
- 1975 "A time series (f with g series) approach to missile trajectory prediction," *Journal of Astronautical Sciences*, January-March.
- 1975 "Range-safety debris pattern analysis," *Journal of Astronautical Sciences*, June.
- 1976 "Study of a remotely piloted marine vehicle (hydrofoil, rigid-airfoil sail craft)," U.S. Navy Contract N00014-76-C-0904, May 15.
- 1976 "Study of Vabne Angle, Flap Angle and Center of Effort for the X-5C Craft," (Contract No. N00014-76-C-0904, Task 3.2.2), TSC TM-76-2, July 20.
- 1977 "Preliminary orbit-determination method having no co-planar Singularity," *Celestial Mechanics*.
- 1977 "Legal implications of the remotely piloted marine vehicle, called the high-endurance automatically translocating subsystems (HEATS)," TSC-TM-77-2, April 8.
- 1980 "Final report, contract N6601-78-C-0375, assembly and test of High-Endurance Automatically Translocating Subsystems (HEATS) demonstration craft," Unmanned hydrophone-array tender, delivered to the U.S. Navy, San Diego, September 1.
- 1980 "Collision probability for a single HEATS moving among other vessels of a different type," TSC-TM-80-1, January 23.
- 1982 "The university of the future," Presentation to the *Los Angeles Breakfast Club*, June. Concerning the Remote Interactive Individual Student Education or RIISE program for international computer network education involving students and faculty from various locations around the globe acting in concert to attend and teach university courses remotely.

- 1989 “Analysis of HEATS/acoustical system for use at drug-traffic choke points in conjunction with Aerostat radar systems,” *TSC-P-89-1*, June.
- 1990 “Electronic passenger and luggage systems,” Report *WCU-P-90-1*, May 25.
- 1990 “Preparation for the electronic luggage–control system,” *TSC-TM-90-4*, March 4.
- 1990 “Electronic luggage tracking systems,” Presentation to FAA (Admiral Bussey), April 4. Including electronically IDed bag tags and “soft” electronic tickets that can be remotely utilized near the Airport for determining departure gate and boarding time and alerting the airline of the passenger’s presence and allowing for secure passenger check in and boarding with minimum airline personnel intervention.
- 1991 with Bonnie S. Baker, “Tests of Rigid-Airfoil Sail (for HEATS) using shore-based test stand,” Ancient Interface Conference, Parma Beach, Phuket, Thailand, October 16-18.
- 1998 “In-house chamber of absolute security (INCASE),” Brochure, November 21. A “safe room” for security during earthquakes, civil disobedience, terrorist attacks, robbery, etc.
- 1998 “Analysis of the Mark III energy storage device,” *TSC-TR-981-1*, June 9.
- 1998 “Peak-Power, energy storage device,” *TSC-TM-98-1*, August 16.
- 1999 “Hardware associated with the IIPCS,” *TSC-TM-99-2*, March 21.
- 1999 “Interconnection of coil sets,” *TSC-TM-99-1*, February 27.
- 1999 “Warping of the space-time universe geometry,” *TSC-TM-99-5*, June 23.
- 2000 “Proof-of-concept spindle calculations,” *TSC-TR-001*, May 11.
- 2000 “Statement of work and schedule for Peak-Power spindle service,” *TSC-TM-002*, March 29.
- 2000 “Preliminary tests of fundamental concepts associated with gravitational-wave spacecraft propulsion,” *American Institute of Aeronautics and Astronautics*, Paper Number 2000- 5250, dated September 20, Latest Revision.
- 2000 “What Poincaré and Einstein have wrought: Modern practical application of general relativity,” Presentation to *The California Club New Science and Technology Specific Interest Round Table*, October 31.
- 2000 “A big jerk: Generation of high-frequency gravitational waves,” Presentation to the

- Economic Round Table*, November 30.
- 2000 “Spindle half time and energy storage capacity,” *TSC-TR-00-2*, August 28.
- 2000 with F. Noble, United States Patent Number 6,160,336, “Peak Power Energy Storage Device and Gravitational Wave Generator,” December 12.**
- 2001 “Twinkle, twinkle little star,” Presentation to the *Economic Round Table* concerning planetary systems around stars, November 17.
- 2001 Peoples Republic of China Patent Number 01814223.0, “Gravitational Wave Generator,” filed July 13, 2001, granted September 19, 2007,. Claims:.**
<http://www.gravwave.com/docs/Chinese%20Detector%20Patent%2020081027.pdf>
- 2002 “High-frequency gravitational waves,” Outline of Lecture Delivered to the *Max Planck Institute for Astrophysics* (MPA), May 9, latest revision.
<http://www.drrobertbaker.com/docs/European%20Lecture%202002%20Revised.pdf>
- 2002 with B. S. Baker, United States Patent Number 6,417,597 B1, “Gravitational Wave Generator,” July 9.**
- 2002 “Round and round they go,” presented to the *Economic Round Table* concerning the history and recent development of windmills, December 12.
- 2003 “Generation of High-Frequency Gravitational Waves (HFGW) by means of an array of micro- and nano-devices”, paper HFGW-03-117, *Gravitational-Wave Conference*, The MITRE Corporation, May 6-9.
- 2003 with Giorgio Fontana, “The high-temperature superconductor (HTSC) gravitational laser (GASER),” paper HFGW-03-107, *Gravitational-Wave Conference*, The MITRE Corporation, May 6-9.
- 2003 “Application of High-Frequency Gravitational Waves to imaging,” paper HFGW-03-120, *Gravitational-Wave Conference*, The MITRE Corporation, May 6-9.
- 2003 with Paul A. Murad, “Gravity with a spin: Angular momentum in a gravitational-wave field,” paper HFGW-03-114, *Gravitational-Wave Conference*, The MITRE Corporation, May 6-9.
- 2003 “What Poincaré and Einstein have wrought: a modern, practical application of the general theory of relativity (The story of High-Frequency Gravitational Waves),” paper HFGW-03-101, *Gravitational-Wave Conference*, The MITRE Corporation, May 6-9.

- 2003 with Paul A. Murad, “Cosmology and the door to other dimensions and universes,” *39th AIAA/ASME/SAE/ASEE Propulsion Conference*, Huntsville, Alabama, July 22, Paper No. AIAA 2003-4882.
- 2003 “Infinity,” presentation to the *Economic Round Table* concerning new theories of infinite dimensions and infinite universes, December 4.
- 2004 “Precursor Proof-of-Concept Experiments for Various Categories of High-Frequency Gravitational Wave (HFGW) Generators,” *Space Technology and Applications International Forum (STAIF-2004)*, edited by M. S. El-Genk, American Institute of Physics, Melville, New York, February 8-12, , Paper F01-2-178.
- 2004 “Precursor Experiments Regarding the Generation of High-Frequency Gravitational Waves (HFGW) by Means of Using an Array of Micro- and Nano-Devices,” *Space Technology and Applications International Forum (STAIF-2004)*, edited by M. S. El-Genk, American Institute of Physics, Melville, New York, February 8-12, , Paper F02-2-179.
- 2004 “An Experimental Program for Assessing High-Frequency Gravitational Wave (HFGW) Optical Applications and the Precursor HFGW Telescope,” *Space Technology and Applications International Forum (STAIF-2004)*, edited by M. S. El-Genk, American Institute of Physics, Melville, New York, February 8-12, , Paper F01-2-178.
- 2004 with B. S. Baker, “Gravitational Wave Generator Utilizing Submicroscopic Energizable Elements,” United States Patent number 6784591B2, filed December 27, 2000, granted August 31.**
- 2004 Canadian Patent Number 2,391,486, “Peak Power Energy Storage Device and Gravitational Wave Generator,” September 21.**
- 2004 “High-Frequency Gravitational Waves: Challenges and Opportunities,” *Chongqing University, Gravitational Laboratory of Huazhong University of Science and Technology and Shanghai Institute of Optics and Fine Mechanics*, P. R. China, November.
- 2005 with Eric W. Davis and R. Clive Woods, “Gravitational Wave (GW) Radiation Pattern at the Focus of a High-Frequency GW (HFGW) Generator and Aerospace Applications,” in the proceedings of *Space Technology and Applications International Forum (STAIF-2005)*, edited by M.S. El-Genk, AIP Conference Proceedings, Melville, NY **746**, p.1315 -1322.
- 2005 with Fangyu Li, “High-Frequency Gravitational Wave (HFGW) Generation by Means of a Pair of Opposed X-ray Lasers and Detection by Means of Coupling Linearized GW to EM Fields,” in the proceedings of *Space Technology and*

- Applications International Forum (STAIF-2005)*, edited by M.S. El-Genk, American Institute of Physics Conference Proceedings, Melville NY **746**, pp. 1271-1281.
- 2005 with R. Clive Woods, “Gravitational Wave Generation and Detection Using Acoustic Resonators and Coupled Resonance Chambers,” in the proceedings of *Space Technology and Applications International Forum (STAIF-2005)*, edited by M.S. El-Genk, American Institute of Physics Conference Proceedings, Melville, NY **746**, p. 1298.
- 2005 “Applications of High-Frequency Gravitational Waves (HFGWs),” in the proceedings of *Space Technology and Applications International Forum (STAIF-2005)*, edited by M.S. El-Genk, American Institute of Physics Conference Proceedings, Melville, NY, **746**, pp.1306-1314.
- 2005 “The Human Kindness Index” presentation to the *Economic Round Table* concerning evolution, Intelligent Design, genes, memes, DNA and the possible improvement of humankind over the past million or so years, December 1.
- 2005 “Gravitational Wave Propulsion,” United States Patent Publication Number 200070001541 A1, June 30.**
- 2006 with Fangyu Li and Ruxin Li, “Ultra-High-Intensity Lasers for Gravitational Wave Generation and Detection” in the proceedings of *Space Technology and Applications International Forum (STAIF-2006)*, edited by M.S. El-Genk, American Institute of Physics Conference Proceedings, Melville NY **813**, pp. 1249-1258.
